

ESW-M6

Remarkably small, powerful subwoofer

Small (8-inch) cube sub fits anywhere

800 Watts power

For accurate reproduction of movie and music soundtracks

6.5-inch anodized aluminum cone woofer with Ribbed Elliptical Surround

Provides tight and powerful bass response

Two 6.5-inch anodized aluminum cone passive radiators

Eliminate port noise; allow deep bass extension

Variable Low Pass Filter—50Hz-200Hz

Allows versatile blending using the built-in crossover or your surround processor

Furniture grade high gloss black cabinets

Hand-finished to ensure durability

All Energy brand components were developed with these sonic principles in mind:

- **Flat On-Axis Frequency Response with Wide Bandwidth**
Speakers should reproduce the entire audio range in a uniform manner. By ensuring that no one frequency dominates any other, Energy ensures that every note is the way it was intended to be—and the sound is as natural as possible.
- **Wide and Constant Dispersion**
Sound at all frequencies radiating from the speaker should be in an even pattern, in all directions throughout the room.
- **Low Distortion and Resonance**
No speaker system is totally distortion- or resonance-free, but Energy has achieved a significantly lower distortion level—a clearly audible improvement.

SPECIFICATIONS	ESW-M6
Speaker System	Single active, dual passive
Woofer	6.5-inch (16.5 cm) Black anodized aluminum cone with inverted Ribbed Elliptical Surround
Passive Radiators	2 x 6.5-inch (16.5 cm) Black anodized aluminum cones with inverted Ribbed Elliptical Surround
Amplifier Power	800 Watts
Frequency Response	42Hz-200Hz
Max SPL	104dB @ 42Hz, ground plane, 1M
Variable Low Pass Filter	50Hz-200Hz, bypass
Phase Control	0° - 360°
Inputs	L + R Line in/Sub in
Power Modes	Off / Auto / On
Units/Carton	1
Dimensions H x W x D (Inches/cm) including feet and grille	8 x 8 x 8 inches 20 x 20 x 20 cm
Finish	High gloss black
Weight	10.1 lbs / 4.6 kg
